Focus on Greenland: Student Science Slam

Why have students from Basel and Zurich become interested in indigenous cultures in the North Atlantic? What sparked that interest? In a relaxed setting, six students who have been studying Scandinavian Studies and History will have eight minutes to explain their research projects on everything from tattoos to literature to photography in Greenland, Sápmi and Alaska. They will explain why they have chosen these topics, what they've found, as well as their process and methodologies.

Participating Students

- Adrian Hamberg
- David Künzli
- Jil Rissi
- Jakob Sollberger
- Ben Stoyer
- Magdalena Werner

21 April 2026 – 17.30-18.30
